

Existing Croudace Homes developments

## About Croudace Homes

Croudace Homes was founded in 1946 and to this day remains a family-owned business. We are committed to building high-quality homes backed up with a first-class customer service. Our strength lies in the care and attention given to the internal and external design, specification of fixtures and fittings, and a quality finish.

This applies equally to the buildings and the landscaping and surroundings which enhance the street scene. Our expertly designed homes are built by experienced professionals using high-quality materials, fixtures, and fittings.

The social and environmental effects of the developments we design and build are always considered and we take our responsibility towards the immediate and wider community seriously.

Incorporating play areas and sports facilities, protecting local wildlife, and hosting community events and raising money for charity are all part of a commitment to make Croudace developments desirable and socially pleasant places to live.
