

Examples of community facilities proposed

Providing something for everyone

We would like to take the opportunity to thank all those local residents who got involved in our first round of consultation in August 2021 about what community facilities are needed in the local area. We found this feedback invaluable when developing the masterplan for the site and incorporating the key facilities that are deemed desirable by the community.

We are aware that Ringmer already boasts some high-quality community facilities and we want to add to this excellent provision. Therefore, the proposed development could provide the opportunity to add to the existing facilities and provide entirely new ones for the benefit of the whole of Ringmer.

In direct response to the feedback received, we have included the provision of the following community facilities, including:

- A new 3G football pitch
- Cricket nets
- Tennis courts
- A junior skate park

- Children's play area
- Outdoor gym equipment
- Public open space for walking and biodiversity improvements

These community facilities will be delivered in partnership with Ringmer Sport & Recreation Trust, which will manage them in perpetuity, should the proposals for the site be approved.

Croudace is keen to engage with residents and other local stakeholders regarding the community facilities which will be provided, and this exhibition will provide a further opportunity for respondents to submit their ideas and comment on those already submitted.
